Land Surveyor, Professional Engineer	By Kay Merdall Deputy
☐ County Surveyor, ☐ County Engineer	DOCUMENT NO. 102720

Statement of Evidence: NORTHEAST CORNER SECTION 12, T114N, R40W

The original Public Land Survey was run in 1858 and a wood post was set in a mound with pits to mark the corner.

In 1901, John Norgaard, County Surveyor, found a stone, set in government mound by adjoining farmers, at the intersection of roads. He placed a 6 inch x 6 inch x 24 inch jasper monument.

In 1916, Norgaard again located the corner.

In 1940, the Yellow Medicine County Highway Department found the monument.

On September 28, 1971, the Minnesota Highway Department found the jasper monument at centerline of roads north, south and west.

An analysis of the record data dating to the original monument provides a continuous chain of perpetuation of the original Public Land Survey corner.

For details of survey analysis, photographs taken during excavation, and 1972 electronic survey measurements, see Survey Report for S.P. 4203 and 8701 on file in the Surveys Section, Minnesota Highway Department, Willmar, Minnesota.
