DOCUMENT NO. 163236

Statement of Evidence: NORTH QUARTER CORNER SECTION 4, T115N, R39W, 5TH P.M.

The original Public Land Survey corner was set in 1858 by W. J. Neely. A wood post was set in a dirt mound with pits and coal was deposited under the post to mark the corner.

In 1909, John Norgaard, County Surveyor, found a stone at a fence corner which was located according to the platting of an addition to the City of Granite Falls.

In 1968, Arbie E. Nelson set a cast iron monument according to the plat of the City of Granite Falls.

An analysis of the record data as compared to the 1973 field measurements to block corners in Pillsbury's Second Addition to Granite Falls shows that the cast iron monument is in agreement with past surveys and is accepted as the location of the Public Land Survey corner.

For details of survey analysis and 1973 electronic survey measurements, see Survey Report for S.P. 8701-18 from 0.3 miles North of the Yellow Medicine River to Granite Falls on file in the Surveys Section, Minnesota Highway Department, Willmar, Minnesota.
