Statement of Evidence: NORTHEAST CORNER SECTION 8, T115N, R39W, 5TH P.M.

The original Public Land Survey was completed in 1864 by Charles E. Davis and J. W. Webb Jr. A wood post was set in a mound of dirt with pits.

In 1901, John Norgaard, County Surveyor, found a stake and a stone at the intersection of roads which were set in the government mound by adjoining landowners. He set a  $6" \times 6" \times 24"$  granite monument at this location at that time.

From records in the County Engineer's Office, the granite monument has been found and used as a section corner prior to 1937, in 1937, and in 1959.

An analysis of this data provides a continuous chain of record perpetuating the location of the original Public Land Survey corner.

For details of survey analysis and 1973 electronic survey measurements, see Survey Report for S.P. 8701-18 from 0.3 miles North of the Yellow Medicine River to Granite Falls on file in the Surveys Section, Minnesota Highway Department, Willmar, Minnesota.
