Statement of Evidence: NORTHEAST CORNER SECTION 19, T115N, R39W, 5TH P.M.

The original Public Land Survey was completed in 1864 by Charles E. Davis and J. W. Webb Jr. A wood post was set in a mound of dirt with pits to mark the corner.

In 1901, John Norgaard, County Surveyor, found a stone at the intersection of roads running north, south, east and west. He set a $6" \times 6" \times 24"$ granite monument at this location at that time.

This monument has been found and used as the section corner in 1939, 1953 and 1962.

An analysis of the record data provides an accepted position for this section corner.

For details of survey analysis and the 1972 electronic survey measurements see Survey Report for S.P. 8701-18 from 0.3 miles North of the Yellow Medicine River to Granite Falls on file in the Surveys Section, Minnesota Highway Department, Willmar, Minnesota.
