 DOCUMENT NO. 163247

Statement of Evidence: NORTH QUARTER CORNER SECTION 21, T115N, R39W, 5TH P.M.

The original Public Land Survey was completed in 1864 by Charles E. Davis and J. W. Webb Jr. A wood post was set in a mound of dirt with pits to mark the corner.

John Norgaard, County Surveyor, established this quarter corner equi-distant and on line between section corners in 1914. He set a stone on the south side of the road grade at that time.

Arbie E. Nelson, a private Land Surveyor, re-established this quarter corner equi-distant and on line between section corners in 1968 and placed the Minnesota Highway Department cast iron monument.

An analysis of the 1973 field measurements indicates that the cast iron monument is 0.43 ft. west and 1.55 ft. north of being on line and equi-distant between section corners. However, the cast iron monument is at the intersection of the centerline of the township road and the northerly extension of the N/S field division line south. This monument was used as a land tie for the Right-of-way description for T.H. 274. The occupation lines and the close proximity of the position as compared to the lost location indicates that this is an acceptable location for the quarter-corner.

For details of survey analysis and 1973 electronic survey measurements see Survey Report for S.P. 8701-18 from 0.3 miles North of the Yellow Medicine River to Granite Falls on file in the Surveys Section, Minnesota Highway Department, Willmar, Minnesota.
