Land Surveyor, Land Professional Engineer	By Kay Nerdall Deputy
☐ County Surveyor, ☐ County Engineer	DOCUMENT NO. LOSZ40

Statement of Evidence: NORTHEAST CORNER SECTION 29, T115N, R39W, 5TH P.M.

The original Public Land Survey was completed in 1864 by Charles E. Davis and J. W. Webb Jr. A wood post was set in a dirt mound with pits to mark the corner.

In 1901, John Norgaard, County Surveyor, found a stone at the intersection of roads which was set by adjoining landowners in the government mound. He set a $6" \times 6" \times 24"$ granite monument at this location at that time.

Records in the County Engineer's Office show that this granite monument has been found and used as a section corner prior to 1937, in 1937 and again in 1959 when an iron was placed over the granite monument.

A short piece of reinforcing steel was found over the granite monument in the 1971 excavation and was removed.

An analysis of this data provides a continuous chain of record perpetuating the location of the original Public Land Survey corner.

For details of survey analysis and 1973 electronic survey measurements, see Survey Report for S.P. 8701-18 from 0.3 miles North of the Yellow Medicine River to Granite Falls on file in the Surveys Section, Minnesota Highway Department, Willmar, Minnesota.
