☐ County Surveyor, ☐ County Engineer	DOCUMENT NO.

M.H.D. FORM NO. 2105

Statement of Evidence: NORTHEAST CORNER SECTION 36, T115N, R40W, 5TH P.M.

The original Public Land Survey was completed in 1864 by Charles E. Davis and J. W. Webb Jr. and a wood post was set in a dirt mound with pits to mark the corner.

In 1901, John Norgaard, County Surveyor, found a stone and stake set by adjoining landowners in the government mound. He set a  $6" \times 6" \times 24"$  granite monument at this location.

Information in the County Engineer's Office shows that the granite monument was found in 1928, in 1937, in 1939 and again in 1964 when an iron monument was placed above the granite monument.

The iron monument was not found during the 1972 excavation. However, five large field stones piled on top of the granite monument were found.

An analysis of this data provides a continuous chain of record perpetuating the location of the original Public Land Survey corner.

For details of survey analysis and 1972 electronic survey measurements see Survey Report for S.P. 8701-18 from 0.3 miles North of the Yellow Medicine River to Granite Falls on file in the Survey Section, Minnesota Highway Department, Willmar, Minnesota.
