Statement of Evidence: NORTH QUARTER CORNER SECTION 15, T115N, R39W, 5TH P.M.

The original Public Land Survey was completed in 1864 by Charles E. Davis and J. W. Webb Jr. when a wood post was set to mark this quarter corner.

O. Quam used the wood post for a survey in 1874.

John Norgaard, County Surveyor, set a stone at the quarter corner according to the stumps of the government bearing trees, sometime prior to 1912. He used this stone for subsequent surveys that he made in this area in 1912, 1914, 1918, 1926, 1929 and 1930.

An analysis of this data provides a continuous chain of record perpetuating the location of the original Public Land Survey corner.

For details of survey analysis and electronic survey measurements, see Survey Report for SP 8701-18 from 0.3 miles North of the Yellow Medicine River to Granite Falls on file in the Surveys Section, Minnesota Highway Department, Willmar, Minnesota.
