M.H.D. FORM NO. 2105

Statement of Evidence: Northeast Corner Section 4, Township 113N, Range 38W.

The original Public Land Survey for township lines was run in 1858 and a charred stake set in a mound with pits to mark the corner.

In 1891, Jonah Peterman found the original mound and set a stake to mark the corner.

In 1901, John Norgaard found the stone and placed a jasper monument to mark the corner.

In 1941, the MHD found a wood stake with no mention of finding a stone monument.

On May 6, 1975, the Minnesota Highway Department found a 6"x6"x24" jasper monument with wood stake above it to mark the corner.

An analysis of the record data indicates that the jasper monument is in the accepted location of the Public Land Survey corner.
