DOCUMENT NO. 167059

Statement of Evidence: Northeast Cor. Sec. 2, T115N, R40W

- 1858 - The original Public Land Survey of township line was completed by W. J. Neeley. A wood post was set and coal was deposited in a mound of dirt with trenches and pits to mark the corner.
- 1901 - John Norgaard, the County Surveyor, found a stone in the government mound and set a 6"x6"x24" granite monument in the mound to mark the corner. He used this monument on subsequent surveys in 1913 and 1915.
- 1937 - The County Engineer replaced the granite monument with a 6"x6"x24" concrete monument.
- 1976 - A Minnesota Highway Department survey crew excavated a hole 4'x4'x 3½' deep. A 6"x6"x24" concrete monument was found 18" below the present road surface. There was nothing under the concrete monument. A Minnesota Highway Department cast iron monument stamped N.E. Cor. Sec. 2, T115N, R40W was placed over the concrete monument and about 3" below the road surface.

An analysis of this data provides a continuous chain of record perpetuating the location of the original Public Land Survey Corner.

For details of survey analysis and 1976 electronic measurements, see the survey report for S.P. 8702 and S.P. 8706, Jct. T.H. 23 and T.H. 67, 3 miles S.W. of Granite Falls, on file with the Surveys Section, Minnesota Highway Department, Willmar, Minn. 56201.
