☐ County Surveyor, ☐ County Engineer	DOCUMENT NO.

M.H.D. FORM NO. 2105

The original Public Land Survey was run in 1867 and a post set in a mound with charred stakes and pits and marked "BT" on boulder N  $22^{\rm O}$  E .60 for witness to corner.

In 1901, J. Norgaard found stake in mound and placed a 6"x6"x24" Jasper stone monument.

In 1929, Minnesota Highway Department field notes show that above monument was inplace with top 3" below ground surface.

In 1930, D. F. Mattson, Minnesota Highway Department Project Engineer, found above stone and placed two reference ties.

In 1934, the County Engineer found the stone and ties inplace.

In 1959, the Minnesota Highway Department found the Jasper monument.

On June 30, 1976, the Minnesota Highway Department found the Jasper stone monument down 5.5 feet below road surface.

On July 6, 1976, the Minnesota Highway Department placed a cast iron monument over the stone. Top of monument is down 2" below surface.

An analysis of the record data dating to the original monument provides a continuous chain of perpetuation of the original Public Land Survey corner.
