Statement of Evidence:

Northeast Corner Section 27, T 115 N, R 39 W

- The original Public Land Survey was completed by Charles E. Davis and James Watson Webb, Jr. A wood post was set in a dirt mound to mark the corner. Pits were dug as per instructions.
- 1892 Jonah Peterman, Yellow Medicine County Surveyor, found original government corner. Survey Book A, page 59
- 1901 John Norgaard, Yellow Medicine County Surveyor, found stone at the intersection of roads, which was set by Peterman in the government mound. Set top of 6" square jasper stone monument level with the ground. Survey Book 3, page 77
- 1983 Byron Dahle, Registered Land Surveyor, found a 6" square by 36" long stone at the intersection of roads. Set a 3/4" diameter iron pin over it.
- 1988 Duane Bonnema, Registered Land Surveyor, found a 3/4" diameter iron pin 0.30' below the road surface. It was located 2' south of the centerline of County Road B1 running east/west and 3' east of the centerline of a north/south township road.
- 1992 A Yellow Medicine County Highway Department survey crew found a monument with an "RLS" cap on it about 2" below the surface of County Road No. Bl. It was located at County Road No. Bl P.I. station 53+46.46. It was shown to be near the intersection of the centerline of a north/south township road with the centerline of the county road.
 - 1994 Matt Schlagel, Land Surveyor in Training with Mn/DOT, found a 19mm diameter iron pipe about 270mm below the road surface. It was located on the centerline of County Road No. Bl east/west and about 1.83m east of the centerline of a north/south township road.

The iron pipe is accepted as the corner location because there is a continuous chain of evidence indicating that it perpetuates the location of the original government corner.

For additional information, contact the Mn/DOT Surveys Section at Willmar, Mn 56201.
