County Recorder Kay Nerdahl
By Jane Rohlik 223189, Deputy
DOCUMENT NO. 223189

North Quarter Corner of Section 26, Township 115 North, Range 44 West

The DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office
Yellow Medicine County Recorder's Office
Yellow Medicine County Highway Engineer's Office
Montevideo City Engineer's Office

- 1871 U. S. General Land Office notes obtained from the Secretary of State's Office show the corner marked with a wood post in a raised mound as per instructions.
- 1911 October, page 251 of a Surveyor's Record Book, obtained from the County Recorder's Office, contains a survey by John Norgaard, County Surveyor. Survey states that corner was established on line and equal distance between section corners. A pole was set to mark corner and is shown:
2640 feet from adjoining section corners
- 2000 May 2, DNR Bureau of Engineering hired a backhoe to dig for evidence of the corner. A 6 foot north-south by 16 foot east-west by 4 foot deep hole was dug, the center being on the centerline of an east-west Township Road and 6 feet east of a fence south. No evidence of a monument was found in excavation. Computed the lost position for corner and found it to be:
- A) 2.5 feet north of the centerline of an east-west Township Road
 - B) 7.5 feet east of a fence south which bends westerly at its northerly end but lines up with the straight portion about 500 to 1000 feet south
 - C) 2638.74 feet from adjoining section corners

Analysis of the above information led the DNR Bureau of Engineering to conclude that the lost position marks the location of the corner. Set a 3/4" by 24" rebar with plastic cap stamped "MN DNR LS 17003" at the computed lost position for corner.
