## Statement of Evidence

In 1864, Davis and Webb did the original subdivision of the township.

In June, 1887, the county surveyor measured the corner to be 40.23 chains from the northwest corner of the section.

In June, 1911, Norgaard found an old wooden stake at the corner. He set an iron bolt. (No distances)

On December 2, 2011, Bueltel-Moseng Land Surveying set a survey spike with seal #43844 midway and on line between the section corners. It fell in the center line of the road and in line with the fence to the south.
