In September, 1871, Lewis Harrington, General Land Office Deputy Surveyor performing the original survey of the subdivision lines set a wood post in a raised mound.

On June 7, 2023, KLJ dug and found an axle shaft down 2.0' on centerline East West and fence line extension South. KLJ found no evidence of the original corner or other corner monuments and accepted the monument as the North $\frac{1}{4}$ corner.

On July, 19, 2023, KLJ set a $\frac{5}{8}$ " rebar with MN LS 48258 down 0.50' below grade. Set monument in same location as found axle shaft due to excessive depth.
