## STATEMENT OF EVIDENCE

In November, 1867, David Watson, General Land Office Deputy Surveyor performing the original survey of the subdivision lines set a wood post in mound with pits.

On June 7, 2023, KLJ found a small  $\frac{1}{2}$  PK Magnetic Survey Nail on the centerline of a bituminous North South County Highway. The nail was lifted and no other magnetic draws were detected, this location has a large roadway fill. It is uncertain who set the nail but it appears that it was set at a straight line single proportion north and south for the East  $\frac{1}{4}$  corner position. The PK nail was reset in the same location. The PK nail was accepted as the E  $\frac{1}{4}$  of Section 29.

On July, 19, 2023, KLJ removed the PK nail and set a  $\frac{1}{8}$ " rebar with MN LS 48258 down 0.50" below grade in the same location as the PK nail.
