☐ County Surveyor, ☐ County Engineer	By,Deputy DOCUMENT NO

Mile Post Number 36 of Section 7, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

South Dakota Historical Society's Office in Pierre

Deuel County Register of Deed's Office

U. S. General Land Office notes, obtained from the South Dakota Historical Society's Office, show the corner marked with a six inch square by eight foot long wood post in a 3 ½ foot high by 5 ½ inch diameter mound with trenches 18 inches east and west. The following was marked on the wood post:

"Minnesota" on the east

"Dakota" on the west

"1859" on the south

"36M" on the north

- 1902 September, pages 48 and 49 of a Surveyor's Field Book, obtained from the Deuel County Register of Deed's Office, contain field notes of G.W. Carpenter's (County and Deputy State Surveyor) resurvey of all the mile posts abutting Deuel County between the states of South Dakota and Minnesota and all of the section and quarter section corners abutting and pertaining to Deuel County. The field notes state that a stone in a mound with 2 pits were found at corner. The stone was replaced with a 6 inch by 6 inch by 30 inch granite stone which was set firmly in the ground.
- 2000 May 10, DNR Bureau of Engineering traversed to the area of the corner and found a 6 inch by 6 inch cut granite stone flush with the ground with a 1 inch by 12 inch iron rod along its northeast edge. The cut granite stone was found to be:

18.5 feet east of a north-south fence 5283.96 feet from Mile Post Number 37

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found 6 inch by 6 inch cut granite stone marks the original location of the corner.

Statement of Evidence

In 1858, W.J. Neely did the original survey of the east line of the township.

In March, 1912, John Norgaard, County Surveyor, located the corner at equal distances between the section corners, but not on line. He set a red brick on the east side of the road. It is in line with the fence going west.

On August 11, 2017, Bueltel-Moseng Land Surveying dug with a backhoe on east side of the road. We found an 1/2" pipe midway and on line, however we did not accepted the position because Norgaard did not set the corner on a direct line between the section corners. We set a 5/8" iron with seal #43844 equal distance between the section corners and 6'± (average width of a township road) east of the center of the road.

North Quarter Corner of Section 17, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:
Minnesota Secretary of State's Office
Yellow Medicine County Recorder's Office
Yellow Medicine County Highway Engineer's Office

- 1871 U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions.
- March, page 368 of a Surveyor's Record Book, obtained from the County Recorder's Office, contains a survey by John Norgaard, County Surveyor. Survey states that the government corner which was also found in 1899 was used for corner. The corner is shown:

2600 feet from the northeast corner of Section 17 2628 feet from the northwest corner of Section 17

1921 August, page 449 of a Surveyor's Record Book, obtained from the County Recorder's Office, contains a survey by John Norgaard, County Surveyor. Survey states:

"found stone at S 1/4 post set in the govt mound by me some years ago."

The corner is shown:

2600 feet from the northeast corner of Section 17 2628 feet from the northwest corner of Section 17

2000 May 15, DNR Bureau of Engineering hired a backhoe to dig for evidence of the corner. An 8 inch by 9 inch by 6 inch field stone was found down 3.5 feet with old wood on its north side and a ½ inch diameter iron rod on its south side. The field stone was found to be:

2.5 feet north of the center line of an east-west Township Road in line with fences north and south2600.99 feet from the northeast corner of Section 172630.84 feet from the northwest corner of Section 17

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found field stone marks the location of the original corner.

Northeast Corner of Section 17, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

- U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions.
- Surveyor's Record Book B, obtained from the County Recorder's Office, contains John Norgaard's, County Surveyor, remonumentation notes for section corners in Yellow Medicine County. The following information is stated about corner on page 130:

found stake in the government mound

set a 6 inch by 6 inch by 24 inch long jasper granite level with the ground to mark corner

March, page 368 of a Surveyor's Record Book, obtained from the County Recorder's Office, contains a survey by John Norgaard, County Surveyor. Survey states that a jasper stone monument was found at corner. The corner is shown:

2600 feet from the north quarter corner of Section 17

1921 August, page 449 of a Surveyor's Record Book, obtained from the County Recorder's Office, contains a survey by John Norgaard, County Surveyor. Survey shows corner but does not indicate what kind of monument was found or set. The corner is shown:

2600 feet from the north quarter corner of Section 17

No Section Corner Tie Book, obtained from the County Highway Engineer's Office, does not indicate what kind of monument was found or set at corner but the following ties are shown to it:

telephone pole, northwest, 45.2 feet fence post, southwest, 62.0 feet fence post, southeast, 48.9 feet

1967 Section Corner Tie Book, obtained from the County Highway Engineer's Office, shows that a granite monument was found 18 inches deep at corner. The following ties are shown to corner:

spike in road, east, 100.2 feet spike in road, west, 100.0 feet power pole, northwest, 46.0 feet fence post, west-southwest, 83.9 feet fence post, east-southeast, 87.1 feet

October 6, a page in a field notebook for County State Aid Highway Number 15, obtained from the County Highway Engineer's Office, shows that a granite monument was found down 18 inches at corner. The following ties are shown to corner:

at PI Station 218+77.1 spike in road, east, 100.2 feet spike in road, west, 100.00 feet cap in power pole, northwest, 46.00 feet cap in fence post, west-southwest, 83.90 feet cap in fence post, east-southeast, 87.10 feet

The construction plan sheets for County State Aid Highway Number 15 show the area of the corner to be in a fill section.

2000 May 8, DNR Bureau of Engineering found a 10 inch long bridge spike at corner down 0.8 of a foot and on the center line of north-south bituminous surfaced County State Aid Highway 15. Removed the bridge spike and in its hole probed to a depth of 3 feet but did not encounter any large stones. No further excavation was conducted for the record granite monument. Searched for and found one record tie as shown on the sketch of reference ties. The bridge spike was found to be:

2600.99 feet from the north quarter corner of Section 17

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found bridge spike marks the location of the corner. Discarded the bridge spike and set a 3/4 inch by 24 inch rebar with aluminum cap stamped "DNR SURVEY MARKER" in its place.

Professional Engineer

DOCUMENT NO.

County Engineer

,Deputy

■ Land Surveyor,

☐ County Surveyor,

East Quarter Corner of Section 17, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

1871 U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions.

No resurvey information was obtained for this corner.

2000 May 17, DNR Bureau of Engineering traversed to the area of corner and found its location to be at the intersection of the center line of north-south County State Aid Highway Number 15 with a fence west. Scanned the area of corner with an electronic metal detector but no metal attraction was obtained. Did not excavate area of corner in search of a monument because no records of a monument being set at corner since the GLO survey was found.

Computed a position for corner as follows:

on line between adjoining section corners

in line with a fence west

The computed position for corner was found to be:

on the center line of north-south County State Aid Highway Number 15

2633.26 feet from the northeast corner of Section 17

2637.75 feet from the southeast corner of Section 17

2.25 feet north of the lost position

Analysis of the above information led the DNR Bureau of Engineering to conclude that the computed position for corner on line between adjoining section corners and in line with a fence west marks the obliterated location of the corner. Set a 3/4 inch by 24 inch rebar with an aluminum cap stamped "DNR SURVEY MARKER" at the computed position for corner.

East Quarter Corner of Section 18, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:
Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

1871 U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions.

No resurvey information was obtained for this corner.

2000 May 17, DNR Bureau of Engineering traversed to the area of corner and found its location to be at the intersection of the center of an old north-south road bed and fences east and west. Did not excavate area of corner in search of a monument because no records of a monument being set at corner since the GLO survey was found and area of corner appears to have been cut for road construction.

Computed a position for corner as follows:

on line between adjoining section corners

in line with fences east and west

The computed position for corner was found to be:

on the center of the old north-south road bed

2634.02 feet from the northeast corner of Section 18

2643.08 feet from the southeast corner of Section 18

4.53 feet north of the lost position

Analysis of the above information led the DNR Bureau of Engineering to conclude that the computed position for corner on line between adjoining section corners and in line with fences east and west marks the obliterated location of the corner. Set a 3/4 inch by 24 inch rebar with an aluminum cap stamped "DNR SURVEY MARKER" at the computed position for corner.

☐ County Surveyor, ☐ County Engineer By			

Northwest Corner of Section 18, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

South Dakota Historical Society's Office in Pierre

Deuel County Register of Deed's Office

- 1871 U. S. General Land Office notes, obtained from the Minnesota Secretary of State's Office, show that a closing corner was established on the western boundary of the state. The closing corner was marked with a wood post in a raised mound as per instructions. The closing corner is shown:

 13.78 chains (909.48 feet) South of Mile Post 36
- 1901 Surveyor's Record Book B, obtained from the Yellow Medicine County Recorder's Office, contains John Norgaard's, County Surveyor, remonumentation notes for section corners in Yellow Medicine County. The following information is stated about corner on page 223:
 - A) located on the government distance 5280 feet south of the northwest corner of Section 7 and on line with Mile Post Number 36 and Dakota monument 176 feet south of the northwest corner of Section 18
 - B) set a 6 inch by 6 inch by 24 inch long jasper granite to mark corner
- 2000 May 8, DNR Bureau of Engineering traversed to the area of the corner and found a 6 inch by 6 inch cut granite stone up 0.3 of a foot. The cut granite stone was found to be:

in line with the westerly projection of the center line of a Township Road east 913.49 feet from Mile Post Number 36

4.50 feet east of a straight line from Mile Post Number 36 to Mile Post Number 37

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found 6 inch by 6 inch cut granite stone marks the location of the closing corner, so computed the position for the northwest corner of Section 18 at the intersection of the following lines:

- A) on line between Mile Post Number 36 and Mile Post Number 37
- B) on the westerly extension of a line from the northeast corner of Section 18 thru the cut granite stone at the closing corner

A monument was NOT set to mark the location of the northwest corner of Section 18.

Northeast Corner of Section 18, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:
Minnesota Secretary of State's Office
Yellow Medicine County Recorder's Office
Yellow Medicine County Highway Engineer's Office

- 1871 U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions.
- Surveyor's Record Book B, obtained from the County Recorder's Office, contains John Norgaard's, County Surveyor, remonumentation notes for section corners in Yellow Medicine County. The following information is stated about corner on page 130: found the government mound and pits set a 6 inch by 6 inch by 24 inch long jasper granite 3 inches above the ground to mark corner
- March, page 368 of a Surveyor's Record Book, obtained from the County Recorder's Office, contains a survey by John Norgaard, County Surveyor. Survey states that a jasper stone monument was found at corner. The corner is shown:
 2628 feet from the north quarter corner of Section 17
- August, page 449 of a Surveyor's Record Book, obtained from the County Recorder's Office, contains a survey by John Norgaard, County Surveyor. Survey shows corner but does not indicate what kind of monument was found or set. The corner is shown:

 2628 feet from the north quarter corner of Section 17
- 2000 May 15, DNR Bureau of Engineering hired a backhoe to dig for evidence of the corner. A 6 inch by 6 inch cut granite stone was found down 1.3 feet. Set a 3/4 inch by 12 inch rebar with aluminum cap stamped "DNR SURVEY MAKER" over the cut granite stone and found it to be: at the intersection of the center lines of roads north, south, east and west 2630.84 feet from the north quarter corner of Section 17

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found 6 inch by 6 inch cut granite stone marks the original location of the corner.

West Quarter Corner of Section 18, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

South Dakota Historical Society's Office in Pierre

Deuel County Register of Deed's Office

The west quarter corner of Section 18 was not set during the U. S. General Land Office survey.

No resurvey information was obtained for this corner.

2000 May 17, DNR Bureau of Engineering computed a position for corner as follows:

equal distance from adjoining section corners for Section 18

on line between Mile Post Number 36 and Mile Post Number 37

The computed position for corner was found to be:

2644.18 feet from adjoining section corners

in a cultivated field

2.5 feet west of a north-south fence

Analysis of the above information led the DNR Bureau of Engineering to conclude that the computed position equal distance from adjoining section corners for Section 18 and on line between Mile Post Number 36 and Mile Post Number 37 marks the location of the corner. Set a 3/4" by 24" rebar with aluminum cap stamped "DNR SURVEY MARKER" at the computed position for corner.

North Quarter Corner of Section 18, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

1871 U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions. The corner is shown:

40.00 chains (2640.00 feet) from the northeast corner of Section 18

3.88 chains (256.08 feet) from the closing corner to the northwest corner of Section 18

No resurvey information was obtained for this corner.

- 2000 May 17, DNR Bureau of Engineering traversed to the area of corner and found its location to be on an east-west Township Road. Did not excavate area of corner in search of a monument because no records of a monument being set at corner since the GLO survey was found. Computed a position for corner as follows:
 - A) on line between found cut granite stones at the northeast corner of Section 18 and the closing corner to the northwest corner of Section 18
 - B) proportional measurement per GLO distances from found cut granite stones at the northeast corner of Section 18 and the closing corner to the northwest corner of Section 18

The computed position for corner was found to be:

3 feet north of the center line of the east-west Township Road

2639.80 feet from the northeast corner of Section 18

256.06 feet from the closing corner to the northwest corner of Section 18

Analysis of the above information led the DNR Bureau of Engineering to conclude that the computed position for corner on line and proportional distance from found cut granite stones at the northeast corner of Section 18 and the closing corner to the northwest corner of Section 18 marks the location of the corner. Set a 3/4 inch by 24 inch rebar with an aluminum cap stamped "DNR SURVEY MARKER" at the computed position for corner.

☐ County Surveyor,

County Engineer

,Deputy

Mile Post Number 37 of Section 18, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

South Dakota Historical Society's Office in Pierre

Deuel County Register of Deed's Office

U. S. General Land Office notes, obtained from the South Dakota Historical Society's Office, show the corner marked with a six inch square by eight foot long wood post in a 3 ½ foot high by 5 ½ inch diameter mound with trenches 18 inches east and west. The following was marked on the wood post:

"Minnesota" on the east

"Dakota" on the west

"1859" on the south

"37M" on the north

1902 September, pages 48 and 49 of a Surveyor's Field Book, obtained from the Deuel County Register of Deed's Office, contain field notes of G.W. Carpenter's (County and Deputy State Surveyor) resurvey of all the mile posts abutting Deuel County between the states of South Dakota and Minnesota and all of the section and quarter section corners abutting and pertaining to Deuel County. The field notes state that a stone in a mound with 2 pits were found at corner. The stone was replaced with a 6 inch by 6 inch by 30 inch granite stone which was set firmly in the ground.

2000 May 10, DNR Bureau of Engineering traversed to the area of the corner and found a 6 inch by 6 inch cut granite stone flush with the ground. The cut granite stone was found to be:

2.3 feet west of a north-south fence

5283.96 feet from Mile Post Number 36

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found 6 inch by 6 inch cut granite stone marks the original location of the corner.

The Minnesota DNR Bureau of Engineering contacted the following for survey information:
Minnesota Secretary of State's Office
Yellow Medicine County Recorder's Office
Yellow Medicine County Highway Engineer's Office

- 1871 U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions.
- Surveyor's Record Book B, obtained from the County Recorder's Office, contains John Norgaard's, County Surveyor, remonumentation notes for section corners in Yellow Medicine County. The following information is stated about corner on page 131:
 found stake in the government mound
 set a 6 inch by 6 inch by 24 inch long jasper granite level with the ground to mark corner
- 1943 Section Corner Tie Book, obtained from the County Highway Engineer's Office, does not indicate what kind of monument was found or set at corner but the following ties are shown to it: third fence post, southeast, 72.3 feet corner fence post, northeast, 49.5 feet second fence post, southeast, 80.4 feet third fence post, southwest, 85.3 feet
- 2000 May 15, DNR Bureau of Engineering hired a backhoe to dig for evidence of the corner. A 6 inch by 6 inch cut granite stone was found down 2.5 feet. Searched for but found no evidence of the record ties. Set a 3/4 inch by 24 inch rebar with aluminum cap stamped "DNR SURVEY MAKER" over the cut granite stone and found it to be:
 - 3 feet south of the center line of an east-west Township Road
 - 4 feet west of the center line of a Township Road south

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found 6 inch by 6 inch cut granite stone marks the original location of the corner.

Land Surveyor,

☐ County Surveyor,

Professional Engineer

County Engineer

By _

DOCUMENT NO.

_,Deputy

224268

Northwest Corner of Section 19, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

South Dakota Historical Society's Office in Pierre

Deuel County Register of Deed's Office

- U. S. General Land Office notes, obtained from the Minnesota Secretary of State's Office, show that a closing corner was established on the western boundary of the state. The closing corner was marked with a wood post in a raised mound as per instructions. The closing corner is shown:

 13.88 chains (916.08 feet) South of Mile Post 37
- 1901 Surveyor's Record Book B, obtained from the Yellow Medicine County Recorder's Office, contains John Norgaard's, County Surveyor, remonumentation notes for section corners in Yellow Medicine County. The following information is stated about corner on page 223:
 - A) located 5280 feet south of the northwest corner of Section 18 and on line of monuments for Dakota
 - B) set a 6 inch by 6 inch by 24 inch long jasper granite to mark corner
- 2000 May 15, DNR Bureau of Engineering traversed to the area of the corner and found a 6 inch by 6 inch cut granite stone up 0.3 of a foot. The cut granite stone was found to be:
 - A) in line with the westerly projection of the center line of a Township Road east
 - B) in line with a fence about 300 feet north
 - C) 917.58 feet from Mile Post Number 37
 - D) 5288.03 feet from a cut granite stone at the closing corner to the northwest corner of Section 18
 - E) 9.06 feet west of a straight line from Mile Post Number 37 to Mile Post Number 38

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found 6 inch by 6 inch cut granite stone marks the location of the closing corner, so computed the position for the northwest corner of Section 18 at the intersection of the following lines:

on line between Mile Post Number 37 and Mile Post Number 38

on line between the northeast corner of Section 19 and the cut granite stone at the closing corner A monument was NOT set to mark the location of the northwest corner of Section 18.

North Quarter Corner of Section 19, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

1871 U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions. The corner is shown:

40.00 chains (2640.00 feet) from the northeast corner of Section 19

3.90 chains (257.40 feet) from the closing corner to the northwest corner of Section 19

No resurvey information was obtained for this corner.

- 2000 May 17, DNR Bureau of Engineering traversed to the area of corner and found its location to be on an east-west Township Road. Did not excavate area of corner in search of a monument because no records of a monument being set at corner since the GLO survey was found. Computed a position for corner as follows:
 - A) on line between found cut granite stones at the northeast corner of Section 19 and the closing corner to the northwest corner of Section 19
 - B) proportional measurement per GLO distances from found cut granite stones at the northeast corner of Section 19 and the closing corner to the northwest corner of Section 19

The computed position for corner was found to be:

on the center line of the east-west Township Road

2635.08 feet from the northeast corner of Section 19

256.91 feet from the closing corner to the northwest corner of Section 19

Analysis of the above information led the DNR Bureau of Engineering to conclude that the computed position for corner on line and proportional distance from found cut granite stones at the northeast corner of Section 19 and the closing corner to the northwest corner of Section 19 marks the location of the corner. Set a 3/4 inch by 24 inch rebar with an aluminum cap stamped "DNR SURVEY MARKER" at the computed position for corner.

DOCUMENT NO. .

☐ County Surveyor, ☐ County Engineer

East Quarter Corner of Section 19, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:
Minnesota Secretary of State's Office
Yellow Medicine County Recorder's Office
Yellow Medicine County Highway Engineer's Office

1871 U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions.

No resurvey information was obtained for this corner.

2000 May 17, DNR Bureau of Engineering traversed to the area of corner and found its location to be on a north-south Township Road. No evidence of east or west lines of occupation exist in area of corner, so computed the lost position for corner and found it to be:

2650.16 feet from adjoining section corners

2 feet west of the center line of the north-south Township Road

Conducted a field search at the computed lost position for corner by scanning the area with an electronic metal detector but no metal attraction was obtained. Did not excavate area of corner in search of a monument because no records of a monument being set at corner since the GLO survey was found.

Analysis of the above information led the DNR Bureau of Engineering to conclude that the lost position marks the location of the corner. Set a 3/4 inch by 24 inch rebar with an aluminum cap stamped "DNR SURVEY MARKER" at the computed lost position for corner.

Mile Post Number 38 of Section 19, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

South Dakota Historical Society's Office in Pierre

Deuel County Register of Deed's Office

U. S. General Land Office notes, obtained from the South Dakota Historical Society's Office, show the corner marked with a six inch square by eight foot long wood post in a 3 ½ foot high by 5 ½ inch diameter mound with trenches 18 inches east and west. The following was marked on the wood post:

"Minnesota" on the east

"Dakota" on the west

"1859" on the south

"38M" on the north

1902 September, pages 48 and 49 of a Surveyor's Field Book, obtained from the Deuel County Register of Deed's Office, contain field notes of G.W. Carpenter's (County and Deputy State Surveyor) resurvey of all the mile posts abutting Deuel County between the states of South Dakota and Minnesota and all of the section and quarter section corners abutting and pertaining to Deuel County. The field notes state that a stone in a mound with 2 pits were found at corner. The stone was replaced with a 6 inch by 6 inch by 30 inch granite stone which was set firmly in the ground. The corner is shown:

79.59 chains (5252.94 feet) from Mile Post Number 37

158.10 chains (10434.60 feet) from the Witness Corner to Mile Post Number 40

2000 May 2, DNR Bureau of Engineering computed the lost position for corner using proportional measurements per the 1902 survey and found it to be:

5259.66 feet from Mile Post Number 37

10447.95 feet from the Witness Corner to Mile Post Number 40

in a cultivated field

11.5 feet east of a north-south fence

Conducted a field search in the area of corner by probing a 6 foot wide by 30 foot long area at 3 inch intervals to a depth of 3 feet the center being along the north-south fence and 11.5 feet west of the computed lost position. No stones were found in the probed area.

Analysis of the above information led the DNR Bureau of Engineering to conclude that the computed lost position using proportional measurements per an 1902 survey marks the location of the corner. Set a 3/4" by 24" rebar with aluminum cap stamped "DNR SURVEY MARKER" at the computed lost position for corner.

DOCUMENT NO. _

 \square County Surveyor, \square County Engineer

Northeast Corner of Section 20, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Beauty's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

- 1871 U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions.
- 1901 Surveyor's Record Book B, obtained from the County Recorder's Office, contains John Norgaard's, County Surveyor, remonumentation notes for section corners in Yellow Medicine County. The following information is stated about corner on page 131:

found stake in the government mound

set a 6 inch by 6 inch by 24 inch long jasper granite 2 inches above the ground to mark corner

1943 Section Corner Tie Book, obtained from the County Highway Engineer's Office, shows that a granite monument was found 1 foot deep at corner. The following ties are shown to corner:

second fence post, northwest, 80.7 feet second steel fence post, southwest, 89.5 feet second fence post, southeast, 99.0 feet

1967 Section Corner Tie Book, obtained from the County Highway Engineer's Office, shows that a granite monument was found 1 foot deep at corner. The following ties are shown to corner:

spike in road, east, 100.0 feet spike in road, west, 100.0 feet power pole, southeast, 63.0 feet fence post, southwest, 69.9 feet fence post, northeast, 91.3 feet

second steel fence post, northeast, 98.9 feet

October 6, a page in a field notebook for County State Aid Highway Number 15, obtained from the County Highway Engineer's Office, shows that a granite monument was found down 1 foot at corner. The following ties are shown to corner:

at PI Station 166+04.1 spike in road, east, 100.00 feet spike in road, west, 100.00 feet cap in power pole, southeast, 63.00 feet cap in fence post, southwest, 69.90 feet

first steel fence post, northeast, 91.30 feet

second steel fence post, northwest, 98.90 feet

The construction plan sheets for County State Aid Highway Number 15 show the area of the corner to be in a cut section of about 2.5 feet.

2000 May 8, DNR Bureau of Engineering found a 12 inch long bridge spike at corner down 0.8 of a foot and on the center line of north-south bituminous surfaced County State Aid Highway 15 and in line with the center lines of roads east and west. Removed the bridge spike and in its hole probed to a depth of 3 feet but did not encounter any large stones. No further excavation was conducted for the record granite monument. Searched for and found record ties as shown on the sketch of reference ties.

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found bridge spike marks the location of the corner. Reset the bridge spike and placed a 3/4 inch by 24 inch rebar with aluminum cap stamped "DNR SURVEY MARKER" over it.

☐ County Surveyor, ☐ County Engineer	By				

North Quarter Corner of Section 20, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information: Minnesota Secretary of State's Office Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

1871 U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions.

No resurvey information was obtained for this corner.

2000 May 17, DNR Bureau of Engineering traversed to the area of corner and found its location to be at the intersection of the center line of an east-west Township Road with fences north and south. Scanned the area of corner with an electronic metal detector but no metal attraction was obtained. Did not excavate area of corner in search of a monument because no records of a monument being set at corner since the GLO survey was found. Set a temporary point for corner at the intersection of the center line of road and fences and found it to be:

2644.71 feet from the northeast corner of Section 20 2651.21 feet from the northwest corner of Section 20

2.23 feet south and 3.23 feet east of the lost position

Analysis of the above information led the DNR Bureau of Engineering to conclude that the intersection of the center line of the east-west Township Road with fences north and south marks the obliterated location of the corner. Set a 3/4 inch by 24 inch rebar with an aluminum cap stamped "DNR SURVEY MARKER" at the obliterated position for corner.

In 1871, Lewis Harrington did the original subdivision of the township.

In 1901, John Norgaard found a stake in a government mound. He set a granite monument.

In 2009, the Yellow Medicine County Highway Department dug with a backhoe and found nothing.

On August 16, 2013, Bueltel-Moseng Land Surveying found northwest and north quarter of Section 28-115-46. We set a 5/8" iron with seal #50343 by doubling the distance between these corners and projecting line from the NW corner through the north quarter corner. It fell in the center of the intersection.

EAST QUARTER OF SECTION 29, T115N, R46W, 5TH PM

1871 Corner was originally established by the U.S. General Land Office as a post set in raised mound of rocks.

1903 Surveyors Record Book page 180, John Norgaard, County Surveyor, completed a survey in Sec 29 in which found pile of stones due east of fence running west.

2014 Bueltel-Moseng Land Surveying completed a survey in Section 29 in which they found a PK nail in place at the corner location.

2017-10-27 Westwood PS searched the area and found a mag nail which fits with the 2014 survey by Bueltel-Moseng in Section 29. Also appears to fit 1903 survey location. Accepting as corner location and set 3 reference ties.

STATEMENT OF EVIDENCE:

NORTHEAST OF SECTION 30, T115N, R46W, 5TH PM

1871 Corner was originally established by the U.S. General Land Office as a post set in raised mound.

1901 Surveyors Record Book B contains a survey by John Norgaard, County Surveyor, in which shows a found stake in government mound and set a 6"x6" jasper granite monument.

1903 Surveyors Record Book contains a survey by John Norgaard, County Surveyor, in which shows a jasper granite monument in place at the corner location.

Undated Resurvey completed in which a stake and government mound were found and set top of monument level with ground.

1997 County Engineers field book for County Rd E-3 shows a field stone in place over a found stone with the following ties:

power pole SE 60.5' power pole NE 60.6'

Station 39+37.09

2000 DNR excavated for the corner and found a bridge spike over a 12'x6"x6" field stone which was over a 6"x6" cut granite stone. A 3/4" rebar with DNR SURVEY MARKER aluminum cap was set over found monuments and a corner record was filed dated 10/30/00.

2014 Bueltel-Moseng Land Surveying completed a survey in Section 29 in which they found a DNR monument in place at the corner location.

2017-10-27 Westwood PS searched the area and found a 3/4" rebar with aluminum cap DNR SURVEY MARKER per 2000 corner record. Accepting as corner location and set 3 reference ties.

North Quarter Corner of Section 30, Township 115 North, Range 46 Wset of the 5th. PM

Civil Design Inc. contacted the following for survey information.

Minnesota Historical Society Library Yellow Medicine County Recorders Office Yellow Medicine County Highway Engineers Office

1871 US. General Land Office Notes, obtained from the Minnesota Historical Society Library, show that the corner was established on the western boundary of the state. The corner was marked with a wood post in a raised mound as per instructions The corner is shown 40 chains (2640 feet) West of Northeast Corner of Section 30 and 3.86 Chains East of Northwest Corner of Section 30.

1903 October 29, page 181 of a Surveyor's Record Book, obtained from the Yellow Medicine County Recorders Office contains a survey by John Norgaard, County Surveyor. Survey tells of a a 2 x 2 stake set 254 feet East of the Northwest Corner of Section 30 which is called out as a Jasper Monument, and 2620 feet west of the Northeast Corner of Section 30 which is called out a Jasper Monument.

2012 January 18 CDI searched for the 2 x 2 stake but was not found.

2012 February 22, CDI contacted the Yellow Medicine County Highway Engineers Office and found no ties or any information for the location of corner.

2012 February 23 CDI computed the position for the corner using proportional measurements per the original GLO Notes of the 1871 survey of Section 30.

A) on line between found monument at the Northeast Corner of Section 30 and the Northwest Corner of

B) proportional measurement per GLO distances from found monument at the Northeast Corner of Section 30 and the Northwest Corner of Section 30.

The computed position for corner was found to be:

2623.95 feet West of the Northeast Corner of Section 30 253.21 feet East of the Northwest Corner of Section 30

Analysis of the above information led CDI to conclude the the computed position for the corner on line and proportional distances from found monument at the Northeast Corner of Section 30 and the Northwest Corner of Section 30. marks the location of the corner. Set a \(\frac{5}{8} \) x 18" rebar with plastic cap stamped R.L.S. 48124 on the computed position of the corner.

Northwest Corner of Section 30, Township 115 North, Range 46 Wset of the 5th. PM

Civil Design Inc. contacted the following for survey information.

Minnesota Historical Society Library Yellow Medicine County Recorders Office Yellow Medicine County Highway Engineers Office Deuel County Register of Deeds Office

- 1871 US. General Land Office Notes, obtained from the Minnesota Historical Society Library, show that the corner was established on the western boundary of the state. The corner was marked with a wood post in a raised mound as per instructions. The corner is shown 13.89 chains (916.74 feet) South of Mile Post 38.
- 1901 Surveyor's Record Book B, obtained from the Yellow Medicine County Recorders Office, contains John Norgaard's, County Surveyor, remonumentation notes for section corners in Yellow Medicine County. The following information is stated about corner on page 223:
- A) Located 5280 feet south of the northwest corner of Section 19 and on line with Mile Post 38 and monument for Dakota..
- B) Set Jasper Monument 2 feet long and 6" x 6" on top.
- 1903 October 29, page 181 of a Surveyor's Record Book, obtained from the Yellow Medicine County Recorders Office contains a survey by John Norgaard, County Surveyor. Survey shows a Jasper Monument at corner but does not indicate if it was found or set.
- 2012 January 18 CDI searched for the Jasper Monument but was not found.
- **2012** February 22, CDI contacted the Yellow Medicine County Highway Engineers Office and found no ties or any information for the location of corner. (They had searched for the monument also but did not recover it.)
- **2012** February 23 CDI computed the lost position for the corner using proportional measurements per the 1902 resurvey of the Mile Posts abuting Deuel County and the original ties of the 1871 survey of Section 30.
- A) Document No. 224268 (Certificate of Location of Government Corner) established Northwest Corner of Section 19.
- B. Document No. 224275 (Certificate of Location of Government Corner) established Southwest Corner of Section 30..
- C) Computed distance of West Line Section 19 = 79.60 chains (5253.60 feet)
- D) Computed distance of West Line Section 30 = 80.43 chains (5308.38 feet)
- E) Measured Distance between Northwest Corner of Section 19 and Southwest Corner of Section 30 = 10641.72 Feet.

Analysis of the above information led CDI to conclude the the computed lost position using proportional measurements per an 1902 resurvey of the Mile Posts abuting Deuel County and the original ties of the 1871 survey of Section 30, marked the location of the corner. Set a $\frac{5}{6}$ " x 18" rebar with plastic cap stamped R.L.S. 48124 on line with Mile Monuments, 5293.19 feet South of the Northwest Corner of Section 19 and 5348.53 feet North of the Southwest Corner of Section 30 at the computed lost position of the corner.

OFFICE OF THE COUNTY RECORDER County of	

Mile Post Number 39 of Section 30, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

South Dakota Historical Society's Office in Pierre

Deuel County Register of Deed's Office

U. S. General Land Office notes, obtained from the South Dakota Historical Society's Office, show the corner marked with a six inch square by eight foot long wood post in a 3 ½ foot high by 5 ½ inch diameter mound with trenches 18 inches east and west. The following was marked on the wood post:

"Minnesota" on the east

"Dakota" on the west

"1859" on the south

"39M" on the north

1902 September, pages 48 and 49 of a Surveyor's Field Book, obtained from the Deuel County Register of Deed's Office, contain field notes of G.W. Carpenter's (County and Deputy State Surveyor) resurvey of all the mile posts abutting Deuel County between the states of South Dakota and Minnesota and all of the section and quarter section corners abutting and pertaining to Deuel County. The field notes state that a stone in a mound with 2 pits were found at corner. The stone was replaced with a 6 inch by 6 inch by 30 inch granite stone which was set firmly in the ground. The corner is shown:

160.01 chains (10560.66 feet) from Mile Post Number 37 77.68 chains (5126.88 feet) from the Witness Corner to Mile Post Number 40

2000 May 2, DNR Bureau of Engineering computed the lost position for corner using proportional measurements per the 1902 survey and found it to be:

10574.17 feet from Mile Post Number 37

5133.44 feet from the Witness Corner to Mile Post Number 40

2 feet west of a north-south fence

Conducted a field search in the area of corner by probing a 4 foot wide by 50 foot long area at 3 inch intervals to a depth of 3 feet the center being along the north-south fence and 2 feet east of the computed lost position. No stones were found in the probed area.

Analysis of the above information led the DNR Bureau of Engineering to conclude that the computed lost position using proportional measurements per an 1902 survey marks the location of the corner. Set a 3/4" by 24" rebar with aluminum cap stamped "DNR SURVEY MARKER" at the computed lost position for corner.

Northeast Corner of Section 30, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:
Minnesota Secretary of State's Office
Yellow Medicine County Recorder's Office
Yellow Medicine County Highway Engineer's Office

- 1871 U. S. General Land Office notes, obtained from the Secretary of State's Office, show the corner marked with a wood post in a raised mound as per instructions.
- Surveyor's Record Book B, obtained from the County Recorder's Office, contains John Norgaard's, County Surveyor, remonumentation notes for section corners in Yellow Medicine County. The following information is stated about corner on page 131: found stake in the government mound set a 6 inch by 6 inch by 24 inch long jasper granite level with the ground to mark corner
- 1903 October 29, page 181 of a Surveyor's Record Book, obtained from the County Recorder's Office, contains a survey by John Norgaard, County Surveyor. Survey shows a jasper monument at corner but does not indicate if it was found or set.
- No Section Corner Tie Book, obtained from the County Highway Engineer's Office, does not indicate what kind of monument was found or set at corner but the following ties are shown to it: second fence post, northwest, 70.8 feet third fence post, northwest, 91.8 feet third fence post, south, 61.2 feet
- July 16, a page in a field notebook for County Road E-3, obtained from the County Highway
 Engineer's Office, shows that a stone with a field stone on top were found down 3 foot at corner.
 The following ties are shown to corner:
 at Station 39+37.09

 power pole, southeast, 60.5 feet

power pole, southeast, 60.5 feet power pole, northeast, 60.6 feet

2000 May 15, DNR Bureau of Engineering hired a backhoe to dig for evidence of the corner. A 12 inch long bridge spike was found down 2 feet over a 12 inch by 6 inch by 6 inch field stone down 3.5 feet over a 6 inch by 6 inch cut granite stone down 4 feet. Searched for and found record ties as shown on the sketch of reference ties. Set a 3/4 inch by 24 inch rebar with aluminum cap stamped "DNR SURVEY MAKER" over the cut granite stone and found it to be:

at the intersection of the center lines of roads east, west and north in line with a fence south

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found 6 inch by 6 inch cut granite stone marks the original location of the corner.

Witness Corner to Mile Post Number 40 of Section 31, Township 115 North, Range 46 West

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

South Dakota Historical Society's Office in Pierre

Deuel County Register of Deed's Office

1859 U. S. General Land Office notes, obtained from the South Dakota Historical Society's Office, show the location for Mile Post Number 40 to be in a lake. A witness corner to the Mile Post was set 3.40 chains North and marked with a six inch square by eight foot long wood post in a 3 ½ foot high by 5 ½ inch diameter mound with trenches 18 inches east and west. The following was marked on the wood post:

"Minnesota" on the east

"Dakota" on the west

"1859" on the south

1902 September, pages 48 and 49 of a Surveyor's Field Book, obtained from the Deuel County Register of Deed's Office, contain field notes of G.W. Carpenter's (County and Deputy State Surveyor) resurvey of all the mile posts abutting Deuel County between the states of South Dakota and Minnesota and all of the section and quarter section corners abutting and pertaining to Deuel County. The field notes state that an old stake and a stone in a mound with 2 pits were found at the witness corner. The stone was replaced with a 6 inch by 6 inch by 30 inch granite stone which was set firmly in the ground.

2000 May 10, DNR Bureau of Engineering traversed to the area of the witness corner and found a 6 inch by 6 inch cut granite stone flush with the ground. The cut granite stone was found to be: under a north-south fence on the north edge of a swamp

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found 6 inch by 6 inch cut granite stone marks the original location of the witness corner to Mile Post Number 40. A position for Mile Post Number 40 was NOT established.

The Minnesota DNR Bureau of Engineering contacted the following for survey information:

Minnesota Secretary of State's Office

Yellow Medicine County Recorder's Office

Yellow Medicine County Highway Engineer's Office

South Dakota Historical Society's Office in Pierre

Deuel County Register of Deed's Office

- 1871 U. S. General Land Office notes, obtained from the Minnesota Secretary of State's Office, show that a closing corner was established on the western boundary of the state. The closing corner was marked with a wood post in a raised mound as per instructions. The closing corner is shown:

 13.90 chains (917.40 feet) South of Mile Post 39
- 1901 Surveyor's Record Book B, obtained from the Yellow Medicine County Recorder's Office, contains John Norgaard's, County Surveyor, remonumentation notes for section corners in Yellow Medicine County. The following information is stated about corner on page 223:
 - A) located due west of the northeast corner of Section 31 and on line with Mile Post Number 39 and monument for Dakota
 - B) set a 6 inch by 6 inch by 24 inch long jasper granite to mark corner
- 2000 May 10, DNR Bureau of Engineering traversed to the area of the corner and found a 6 inch by 6 inch cut granite stone flush with the ground. The cut granite stone was found to be:

2.88 feet east of a straight line from Mile Post Number 39 to the Witness Corner to Mile Post Number 40

Analysis of the above information led the DNR Bureau of Engineering to conclude that the found 6 inch by 6 inch cut granite stone marks the location of the <u>closing corner</u> to the northwest corner of Section 31. A position for the northwest corner of Section 31 was NOT established.

☐ County Surveyor ☐ County Engineer		

EAST QUARTER OF SECTION 34, T115N, R46W, 5TH PM

1871 Corner was originally established by the U.S. General Land Office as a post set in raised mound.

1905 Surveyors Record Book Page 177 shows a survey for Section 35 by John Norgaard, County Surveyor, in which they found the Government Mound in place at the corner location.

2016 Roy Marihart completed a survey in section 34 in which he found a monument in place at the corner location.

2017-11-02 Westwood PS searched the area and found nothing. Set 1/2" rebar with cap LS45874 at occupation on north-south centerline and on line with fence line runnung west. Position fits close to 2016 survey of section 34 and also to 1905 survey of section 35. Set 3 reference ties.
